BONUS #1

VISTE 3D DEI PROGETTI

Ogni progetto del DIY Master Pack esploso pezzo per pezzo: vedi dove va ogni tavola prima ancora di prendere in mano il trapano.

- 102 PROGETTI
- VISTE ESPLOSE
- LETTERE DELLA DISTINTA

COME USARE LE VISTE 3D

COME LEGGERE LE VISTE ESPLOSE

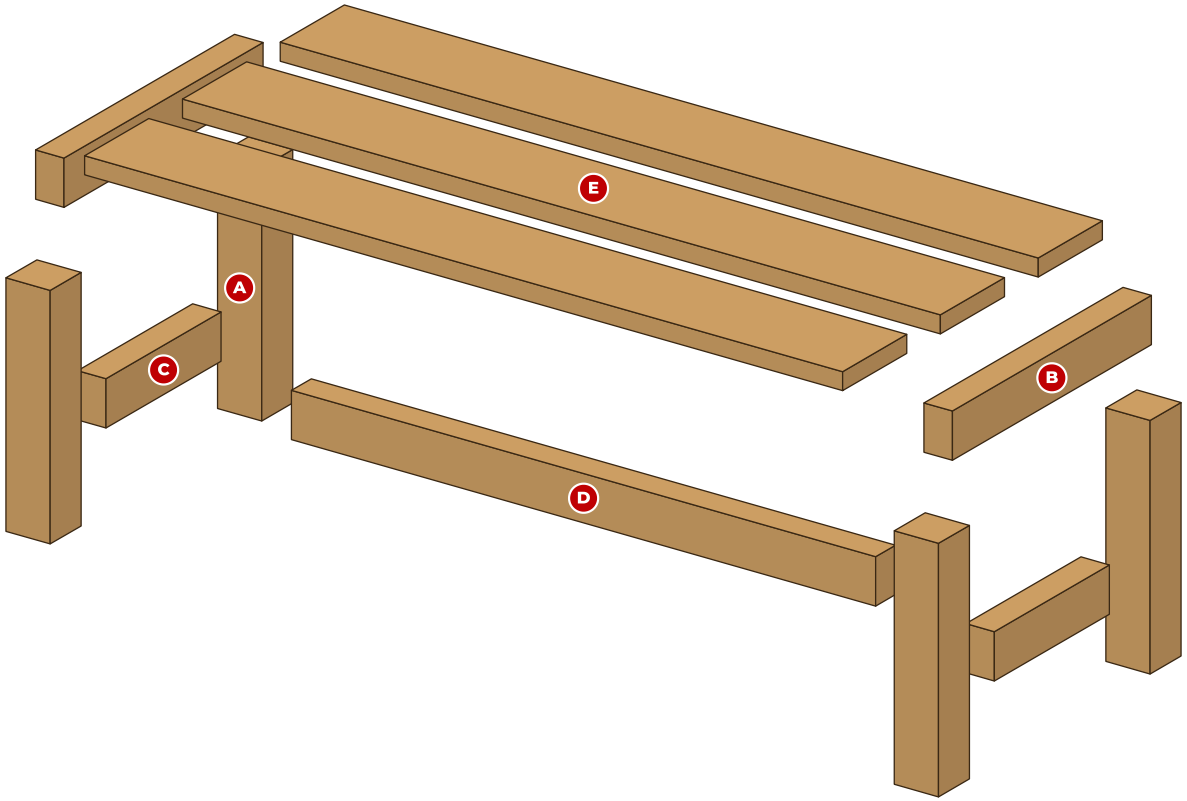

Una vista esplosa allontana i pezzi dal centro del mobile, come se lo smontassi in aria. Così vedi anche le parti nascoste: traverse interne, listelli, fondi.

- [ ] Le lettere rosse sono le stesse della distinta di taglio del progetto.
- [ ] Il riquadro piccolo mostra il mobile montato visto dall'altro lato.
- [ ] Usa queste pagine durante il montaggio, accanto alle istruzioni passo passo.

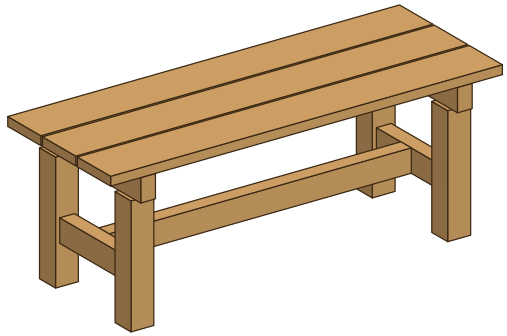

> Consiglio: stampa la pagina del progetto che stai costruendo e tienila sul banco. Segna con una spunta ogni pezzo che hai già tagliato.
